

Covid-19 Message

The South Australian Film Corporation (SAFC) and COVID-19.

The screen industry has been affected by COVID-19. Film productions have stopped. Lots of people have lost their jobs.

The SAFC will be **responsive** and **agile** during Covid-19

Responsive means to do things quickly.

Agile means to move quickly.

We will **advocate** for the South Australian screen industry.

Advocate means to support. It also means to give ideas or way of doing something.

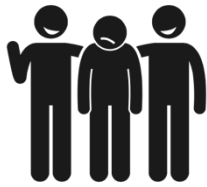

We will spend our funding (money) where we can have the most **impact**.

Impact means to have a big change

We will be guided by our **values**.

Values mean what is important in how we behave.

We will be:

Supportive

Can Do

Trustworthy

Open

Professional

Inclusive

What we are doing now has come from screen industry feedback and ideas.

Look at our [COVID-19 FAQ page](#) for other support resources.
